

Mission Planning Checklist

Mission title / ID: _____

PI / Science Lead: _____ **Glider S/N:** _____

Planned deployment date: _____ **Planned duration:** _____

Date of this review: _____ **Reviewer:** _____

1. Mission Objectives

- ☐ Primary science objective defined and recorded in mission plan
- ☐ Required track and/or area of operation specified
- ☐ Required sensors identified and confirmed available
- ☐ Science sampling configuration defined (depth range, yo rate, sampling interval)
- ☐ Mission duration and endurance requirements calculated
- ☐ Secondary / opportunistic objectives identified and prioritised
- ☐ Mission plan signed off by both Science Lead and Glider Logistics Lead

2. Area of Operations

- ☐ Operational boundary polygon defined and recorded

Tides

- ☐ Tidal range and current speeds assessed for the deployment area
- ☐ Tidal phasing considered in track design and surfacing timing
- ☐ Tidal effects on ballasting target reviewed

Shipping lanes

- ☐ Shipping lane positions identified (marinetraffic.com or equivalent)
-
