

Slocum Glider Deployment Procedure

For vessel operators and external deployment partners

This document is intended to be shared with ship crews, vessel operators, and any external personnel assisting with the deployment of a Slocum G3 glider. It covers unboxing, pre-deployment setup, and launch from both a MOB-boat and a large vessel.

Do not power on or deploy the glider without explicit clearance from the glider operations team. Contact details are in the [Operator Contacts](#) section below.

Operator Contacts

Update before distributing

Replace the contacts below with the relevant personnel for each deployment.
